1. Fill your vase or other container with rocks or vase filler (optional, but it helps the branches stay upright).
2. Arrange branches to create a “tree.” You can paint or decorate the branches to your liking.
3. Take the time to reflect on your New Year’s resolutions. What do you envision for yourself in the new year? Are there goals you’d like to achieve? Anything you wish for your family or friends? Write down a wish or resolution on one ornament, decorate to your liking, then hang on the tree. You can have friends or family add their own, or get creative in other ways!
